Incoming Disks Welcome

We at *Military Review* are happy to see more and more manuscripts coming to us on disk. We encourage all of you to use this medium for your next submission. It saves us valuable processing time, and it probably will reduce your paper and postage cost, as well. Rather than sending multiple paper copies of your article, please include only *one* double–spaced paper copy along with the disk. Please indicate what software was used to create the disk. Our equipment can process 5.25–inch disks in the following formats: Multimate, Wordperfect, Display-write, ASCII, Wordstar and Officewriter. For 3.5–inch disks, we can process MS DOS in ASCII, MS–Word or Wordperfect. In addition to these three formats, we can process Macintosh in Macwrite, Works (WP) or Writenow. To facilitate translation from one format to another, we ask that you either use "hard returns" at line breaks or use "full" or "hard" save to an ASCII file when transferring to disk. We will, of course, return your disk to you, if you wish.
